ABSCONDING DEBTOR

About two years ago Peter J. McEnrue was employed as a motorman on the local street railway. Since then he has been employed in Waterbury, Conn., as moulder in a brass foundry. He arrived in the city on Friday evening and said he intended to visit here for a few days, but he has changed his mind.

here for a few days, but he has changed his mind.

Lawyer W. C. White, who had two bills sgainst McEurue in favor of the B. M. Shepard Company and W. H. Farrar, each amounting to about \$10, learned of McEurue's arrival and that he had been making money in Connecticut. Mr. White had warrants issued against McEurue as an absconding debtor and placed them in the hands of Debuty Sheriff Tracy for service.

The officer found McEurue at the Pavilion, where he was staying. When he made his errand known, McEurue appeared willing to adjust the matter but requested Mr. Tracy to come with him to his room where the business could be done without attracting publicity.

The officer, always accommodating, complied with McEurue's request. McEurue led the way and when in a dark passageway gave the officer the slip. He had formerly been employed at this hotel so it was easy for him to elude the officer and escape from the hotel unobserved.

A thorough search was made but McEn-

essy for him to elude the officer and escape from the hotel unobserved.

A thorough search was made but McEnrue could not be found. It is said he took the night train out of the State.

The climax of the affair is especially embarrassing to Mr. Farrar as he observed McEnrue driving past his farm in Middlesex while he was milking and rode to this city Friday evening on his bloycle to take proceedings against him, returning home his morning.

Mr. Traey when seen on Saturday about

Mr. Tracy, when seen on Saturday about the sfiair, said he was not sure that he should not obtain requisition papers and bring Mc-Enrue back to Vermont as he was under arrest when he escaped. He said McEnrue settled the Farrar till by giving his watch as security. Mr. Tracy has placed an attachment on the watch so that should Mc-Eurue redeem it there would be still a second redemption to be made.

MOTION DENIED

In county court Monday afternoon Judge Watson denied the motion for a new trial in the forgery case of State against J. P. Donovan of this city on the ground that State's Attorney Hoar had unduly influenced the jurors by playing cards with them and treating them to cigars.

Judge Watson rendered an elaborate opinion which occupied twenty-five minutes in its del Aery. He quotted freely from numerous authorities bearing upon the case and applying these to the facts in the Donovan cree said: "It appears that this card playing wes previous to the Supreme Court. At that time the jurors had no reason to be

playing wes previous to the Supreme Court. At that time the jurors had no reason to believe that they would be on the Donovan case. It is difficult to see how this card playing would affect any juror in any verdict he might render five weeks afterwards. In fact we are confident such is the cess and the motion is overruled.

J. W. Gordon, counsel for Donovan, took exceptions to the ruling, and will probably carry it to Supreme Court.

In referring to the contested divorce case of Ingram against Ingram, in which the potition was dismissed last week Judge Watson said Mr. and Mrs. Ingram ought to live together again as man and wife, that nothing had developed in the hearing in the case to prevent this.

The case of Young against the City of Barre was discontinued,

No other business appearing the court instructed Sheriff Graves to adjourn court without day.

FIRE AT WEST TOPSHAM.

A fire at West Topsham early Sunday morning destroyed a church, two stores and two dwellings, with barns attached, causing a loss of twenty thousand dollars.

Dr. J. A. Dow returned home at about two o'clock Sunday morning. While in the hay loft feeding his horse he overturned his lantern, setting fire to the hay. No appliances for fighting the fire were at hand and it spread rapidly to adjoining buildings. The stores of G. K. Church and F. P. Cunningham, over which were tenements, and the church and the dwellings of C.F. Smith and Dr. Dow were totally destroyed. The postoffice was located in the Church store.

The business center of the village from the school house to Dr. Willard's was wiped out. Here the flames were stopped by hard work on the part of citizens who turned out en masse and formed a bucket brigade.

turned out en masse and formed a bucket brigade.

The insurance is as follows: On the church, \$1,050; on the Church store, stock and furniture, \$3,900, in stock companies; on the Cunningham store and stock, \$3,200 also in stock companies; on Dr. Dow's buildings, \$2,400 in the Union Mutual of Montpeller; on C. F. Smith's house and barn, \$1,475, in the Vermont Mutual. The store of F. P. Cunningham & Co. and the church will be rebuilt.

FRATERNITY DAY.

LETTER TO J. Q. ADAMS. (Montpelier, Vt.)

Dear Sir: You know how well it pays to keep your carriages painted, both for looks and to keep out water. It pays rowell to paint your barn and your house. We put your barn first, because that is your business—your customers see it.

You see, there are two good reasons for paint; one is looks; the other is wear. If you paint for looks, the wear will take care of itself.

Paint often for looks; and use good paint for both looks and wear.

The best paint is Devoe lead and zinc ground together by machinery; same proportions as are used by the U. S. Government. It wears twice as long as lead and oil mixed by hand.

Yours truly,

STEEL WORKERS' STRIKE.

PITTSBURG, July 29 .- The strike of the steel and tin workers of the Amalgamated Association against the United States Steel Corporation will probably be settled this week. The conference held in New York on Saturday between the officials of the United States Steel Corporation and President Shaffer, and Secretary John Williams of the workers' organization, has resulted in paving the way for a renewal of negotiations between the two conflicting in-

It is believed that before the end of the week the mills will all be ready to run again, providing repairs are completed that have been undertaken since the strike began. Should the project fail of coming to an amicable end, however, the fight promises to be more bitter than ever. For this reason those back of the present negotiations are extremely auxious to have everything kept as quiet as possible and that nothing should be made public regarding the basis for a conference until it had been accepted by both sides.

McKeesport, Pa., July 29 .- No effort was made this morning to start either the Dewees Wood plant, the American Sheet Steel company or the United States Tin, Plate mill, and there is no change in the situation

PITTSBURG, Pa. July 29.—Following the secret conference of New York with Morgan, Schwab and Judge Gray last Saturday, the officials of the amsigamated association this morning be-gan a series of conferences with members of the executive committee for the probable purpose of outlining a policy of association, at the conference to be held 'omorrow between the leaders on both sides of the controversy.

Paesident Shaffer and all other offi-

cers absolutely deny themselves to interviewers. Among Shaffers callers today were Col. French, vice-president of the Republic Iron and Steel Co., Joseph Bishop, secretary of the Ohio State board of arbitration and William Collier, a well-known labor leader.

New York, July 29.—At the offices of the steel trust, the strike is regarded as virtually at an end. The men have Morgan's terms, their leaders have expressed satisfaction with them, and continued idleness depends upon the time required for ratification of terms by the Amalgamated Association. Steel trust securities today opened

higher than since the strike began. Prices were not only strong but seemed to be on a firm basis. There is no suggestion that the market buoyancy is due to the use of two hundred million reserved fund reported to have been placed in the hands of the trust to keep up prices.

PITTSBURG, Pa., July 30 .- The executive committee of the Amaigamated Association will meet in the headquarters of the organization today or as soon as possible thereafter, and take up the propositions of the United States Steel Corporation for a settlement of

Everybody this morning in strike circles is expectant, and the conference today between the leaders of the two contending forces is looked forward to with mingled hope and fear. Hope, however, predominates and peace is confidently expected by the majority

The following terms of settlement of the strike and the programme for today come from an authoritative source and can be relied upon in all human probability as the outcome of the meeting of the conference. Terms of probable settlement:

The Amalgamated Association is to drop contention for the signing of a scale for all mills. All mills are to be "open" mills in the fullest sense of the term.

The company is to have the right to place a non-union man in any plant

and keep him there.

In addition to the plants covered by the expired scale it is to be signed for the following: W. Dewes Wood of Mckeesport, Painter, Lindsay and McCutcheon, and Clark mills of Pittsburg and Monessen plants of the American

The question of making the Wellsville plant and the Monessen tin plate directly covered by the scale is to be settled by the conferees. PITTSBURG, July 30. — Statisticians were at work on Monday figuring up

the losses to the strikers in the way of wages. The strike has been going on wo weeks. About twelve working days have been lost. On an average day's pay of \$2 for each man, skilled and unskilled, for the 37,000 men idle, the loss would be \$74,000 a day, or \$888,000. While \$2 a day is the average wage many of the skilled earn from \$12 to \$15 a day, and the wages of other skilled men run from \$2 to \$8 a day. Some compensation for this loss may be the wages that carpenters, mill-wrights and other workingmen earned. wrights and other workingmen earned in working on repairs to the mills. The strike was hardly any loss to the manu facturers, as they took the opportunity to make repairs, and the product they had on hand increased materially in price on account of the strike.

price on account of the strike.

PITTSBURG, July 30.—The executive committee of the Amalgamated Association met at headquarters at 9:30 this morning, half an hour earlier than was anticipated. Previous to the session President Shaffer announced to all newspaper men that there was absolutely nothing to be given out. When asked when a statement of the result would be given to the press he said certaindle not before the middle of the afternoon.

The meeting opened with a genena statement of its purpose by President Shaffer, who related his New York experience. Secretary Williams followed, reading the proposals of the trust from a type written copy furnished by Mr. Morgan. An animated discussion followed and an adjournment was made to an adjoining room, where Secretary to an adjoining room where Secretary Williams spent some time at the telephone. The morning session closed without formal action on the proposition before it.
